

Thermorossi Ecotherm 1000

Price €1,899.00 Including Vat

Ecotherm 1000: Small size, high performance pellet heater; it delivers 7 kW of power, it provides heat to 162 m3 of space and its silent operation is hard to beat. Muffled motors which ensure a noise level of 36 dB under minimum rated conditions and a centrifugal room fan is mounted on bearings with airtight, dustfree motor. To improve sound comfort the ventilation level may be adjusted regardless of combustion strength. Higher efficiency because of the cast iron burner to optimize combustion and to ensure reliability and long life. Accurate finishes and valuable ceramic tiles contribute to make the firebox more attractive.
